

# UV PHAZER BLACK

UV LED Leak Detection Light

## CAUTION!

**ALWAYS USE APPROPRIATE EYE PROTECTION (UV ENHANCING GLASSES) WHEN OPERATING LIGHT.** Protect eyes during operation. Do not look directly at the light during operation. Exposure to UV light, even for a brief period can damage your eyes.

## Operating Instructions

### IMPORTANT!

Studies have proven that the use of UV Enhancing Glasses (supplied) allow the user to find and spot leaks easier and faster. For more information on this subject visit [www.uview.com](http://www.uview.com)

- 1) Put on UV Enhancing Glasses (supplied).
- 2) Turn on lamp by depressing switch on rear of lamp.
- 3) Scan the area with the UV lamp.
- 4) Adjust focus/intensity by turning head on lamp.

A fluorescent glow will appear from leaks. For optimum results do not use lamp in bright sunlight and make sure to wear the UV Enhancing Glasses as they will allow you to more clearly see the fluorescent glow of the dye.

2 hrs.

Running  
time.

## Limited Warranty

*This product is warranted to be free of defects in materials and workmanship for a period of one year from the date of purchase. Proof of purchase required to obtain warranty service. The information presented herein is based on proper application and normal use of the product. Because the manufacturer cannot control handling, storage, and use of the product, no warranty of fitness or merchantability of any kind, either expressed or implied, is made regarding the product. The manufacturer assumes no responsibility or liability with respect to personal injury or property damage resulting from the improper use, handling, or results from using this product.*
